ABOUT PAYPOINT

PayPoint is a leading international provider of convenient payments and value added services to major consumer service organisations in the utility, housing, water, telecoms, media, financial services, transport, retail, e-commerce, gaming and public sectors.

PayPoint delivers payments and services through a uniquely strong combination of local shops, internet and mobile distribution channels and handles over £11 billion from over 600 million transactions annually for more than 5,000 clients and merchants.

Retail networks

The PayPoint branded retail network in the UK numbers over 23,000 local shops (including Co-op, Spar, McColls, Costcutter, Sainsbury's Local, One Stop, Londis and thousands of independents). Collect+, a joint venture with Yodel, provides a parcel collection and drop off service at more than 4,500 PayPoint retailers. Its ATM network numbers more than 2,500 'LINK' branded machines across the UK, mainly in the same sites as PayPoint terminals.

In Romania, the branded retail network numbers over 6,500 terminals located in local shops, processing cash bill payments for utilities and mobile phone top-ups. In the Republic of Ireland, over 500 outlets in shops and credit unions process mobile top-ups and bill payments.

Internet

PayPoint.net is an internet payment service provider linking into all major UK acquiring banks to deliver secure online credit and debit card payments for over 5,000 web merchants. It offers a comprehensive set of products ranging from a transaction gateway through to a bureau service and FraudGuard, an advanced service to mitigate the risk of fraud.

PayByPhone

PayByPhone is a leading international provider of services to parking authorities allowing consumers to use their mobile phones to pay for their parking by credit or debit card. It has contracts in the UK, France, Canada and the USA.

PayPoint is widely recognised for its leadership in prepayment systems, smart technology and consumer service.
