

Great exclusive debit and credit card rates

- Standard rates starting at 1.4% and 14p and can go even lower!
- Card shoppers have an increased average spend on shop goods.
- Save counter space and money by switching to PayPoint.
- Free till rolls, polling and card authorisation calls.
- Simple low monthly payments.
- The back up of the PayPoint and Lloyds TSB teams.

PayPoint has secured a new and exclusive Credit and Debit agreement with Lloyds TSB that offers PayPoint's lowest-ever transaction processing fees of 1.4% on credit card payments and 14p on debit card payments. If you already offer Credit and Debit we may be able to offer even better rates depending upon proven Credit and Debit transaction volumes.

Credit and Debit users spend more than cash customers, so retailers who offer this payment service usually see an increase in shop sales.

Research carried out in 2006 by consultancy him! showed convenience shoppers who paid with cash spent £4.96 on average and bought 2 to 3 items, while credit/debit card users spent an average of £9.30 and purchased 3 to 4 items.

With PayPoint you can accept mobile top-ups, gas, water, electricity, TV licensing and Credit and Debit card payments with cashback – all in one compact terminal! With no need for any other terminal, just think of the counter space you could save!

In addition to the transaction fees there is a small £3.50 weekly connection fee to PayPoint and a one off administration fee is payable to Lloyds TSB if you do not currently offer a Credit Debit Service with any other acquirer.
